Survey of UC Berkeley Emeriti Activity

July 2012- June 2015

Every three years, the Council of University of California Emeriti Associations (CUCEA) conducts a survey that attempts to reach all UC emeriti for the purpose of compiling information about their activities in retirement, especially as these activities relate to their academic careers. The most recent survey, covering the period from July 2012 – June 2015 was administered in Fall of 2015 and the results are now available.

The survey methodology is a 19-item standard survey formatted for online participation. It was prepared and distributed using SurveyMonkey. A copy of the survey can be found at the CUCEA website: (<http://cucea.ucsd.edu>). Each of the nine individual UC emeriti associations managed its own survey distribution process and made its own appeals to emeriti for participation. An exact number of emeriti who were contacted within the UC system is not available, although a reasonable estimate is 6,250. The results for the entire UC system are described in a report generated by CUCEA, entitled “A Virtual Eleventh Campus: An Inventory of University of California Emeriti Activity During 2012-2015.” A copy of this report can be found at: <http://cucea.ucsd.edu/documents/AVirtualEleventhCampus.pdf>

This UCB summary report focuses on the responses provided by UC Berkeley emeriti. Based on a database provided by the UCB Retirement Center, the survey was distributed to 1047 emeriti. Emeriti were contacted either by regular mail or by email, depending on their stated preference for receiving information about emeriti affairs. Those contacted by email were encouraged to participate in the study and given a link to an online SurveyMonkey survey. Those emeriti who stated a preference to use standard mail received a printed version of the online survey along with a stamped return envelope. Mailed surveys were returned to the local campuses and the information on them was transcribed into the SurveyMonkey database. After an initial request, two follow-up requests were made to all emeriti requesting their participation. Responses were obtained from 323 emeriti, which is 31% of the UCB emeriti contacted.

Results for the survey are presented in the following pages. The format used to present the results is to (1) present each question as provided in the survey; (2) followed by the number and percentages for the responses to the categories of the question. For many of the questions, there was an opportunity for the respondent to provide a comment, explanation, or elaboration. These open-ended responses are summarized briefly in a “NOTE” following the table presentation of the results.

What the data and results show is that UC Berkeley emeriti continue to be active contributors to Berkeley’s excellence. Many have continued activities in areas on campus pertaining to campus teaching, research, administration, and service, as well as to their professional associations. Emeriti

continue to be highly creative, generating much new research and scholarship. Emeriti continue to garner honors, recognition, and awards. And of special note, many emeriti continue to obtain grants and financial support for their research endeavors as well as provide significant amounts of financial contribution in the form of donations and bequests. Finally, the results show that many have transitioned to retirement and found new ways to channel their energies that include societal, campus, and family endeavors. Emeriti are a strong resource for the campus, and they are a potent group of representatives for campus as well.

Many retirees have clearly chosen not to disengage from their campus, their research and teaching activities, and their commitment to UC Berkeley. UC Berkeley not only should be proud of their retired faculty but also should consider ways to make good use of their experience and energy.

Q17 Amount(s) contributed to UC during 2012-15; if none, leave blank (please enter whole numbers, without a \$ sign or a comma--\$10k should be entered as 10000):

Answered: 170 Skipped: 153

Answer Choices	Average Number	Total Number	Responses
Cash	21,495	3,503,699	163
Estimated value of In-kind goods or	21,554	538,848	25
Amount of bequest established	428,223	7,708,012	18

NOTE: Whereas 186 of the respondents indicated that they have contributed to the University of California (see responses to Q16), 170 provided amounts as shown in the above table. Note, however, that data on contributions can be obtained via other methods than self-report. Accordingly, data on amounts and number of contributions from emeriti were obtained from the UCB Development Office, which reflects contributions for all emeriti (those who responded to the survey as well as those who did not). The results are shown below. The data include the total number and total amount of gifts, pledges, and matching gifts given in the specified fiscal year. Because bequests are recorded as pledges, the data include these gifts.

In 2013, Emeriti gave 1,039 gifts for an approximate total of \$3,716,349.

In 2014, Emeriti gave 974 gifts for an approximate total of \$6,410,020.

In 2015, Emeriti gave 897 gifts for an approximate total of \$16,496,519.

In total, Emeriti gave 2,910 gifts for an approximate total of \$26,622,888.

Q18 Please describe any other of your activities in retirement during 2012 - 2015 that you think may be of interest:

Answered: 88 Skipped: 235

NOTE: The types of activities cited in response to this question include: teaching at other universities; guest lectureships; working in one's own or other's developing companies; service in the community; etc. – many of these activities could have, and perhaps were, noted in responses to other questions in the survey. Other activities included “enjoying retirement,” baby-sitting and caring for elderly family or friends.
