Committee on Memorial Resolutions
Annual Report, 2005-2006

In 2005-06, the 50 memorials in the following list were completed for publication in In Memoriam at: http://www.universityofcalifornia.edu/senate/inmemoriam/welcome.html

Gunther Barth  History
William J. Bouwsma  History
Julian C. Boyd  English
Leo Brewer  Chemistry
James M. Carman  Haas School of Business
James Cason  Chemistry
Shiing-Shen Chern  Mathematics
Mark N. Christensen  Energy and Resources Group
C. West Churchman  Haas School of Business
Robert N. Colwell  Environmental Science & Policy Management
Lincoln Constance  Integrative Biology
Nicholas R. Cozzarelli  Molecular & Cell Biology
Vernon Armand DeMars  Architecture
Alan Dundes  Anthropology
Suzanne Fleischman  French
Alan S. Foss  Chemical Engineering
Ernest Greenwood  Social Welfare
Bent Hansen  Economics
Morgan Harris  Molecular and Cell Biology
August Carl Helmholtz  Physics
Richard Holton  Haas School of Business
Richard W. Jennings  Law
Reginald Jones  African American Studies / Graduate School of Education
William Kornhauser  Sociology
Adrian A. Kragen  Law
Jean Olson Lanjouw  Agriculture and Resource Economics
Walter B. Lawrence  Civil and Environmental Engineering
Tung-Yen Lin  Civil and Environmental Engineering
Stewart Harvey Madin  School of Public Health
Martin E. Malia  History
Sheldon Margen  School of Public Health
Czesław Miłosz  Slavic Languages and Literatures
Luis Monguíó  Spanish & Portuguese
Donald Sterling Noyce  Chemistry
William J. Oswald  Civil and Environmental Engineering / School of Public Health
A major goal of our committee has been to reduce the time delay between the death of a colleague and the publication of the Memorial Resolution. The obstacles to attaining this goal are: 1.) the difficulties in obtaining the timely cooperation of department chairs or deans to find members of the ad hoc committees that draft the Memorial Resolutions; 2.) the difficulties in obtaining drafts of the memorials from the ad hoc committees once they are established. These problems are illustrated by the status of the memorials for the 31 senate members who died in calendar year 2005: As of the end of August 2006, only 24 of the 31 ad hoc committees had been appointed. Of the 24, only 16 had been established within 3 months or less, and the other 8 took between 4 and 13 months. For the other 7, no committee had been established as of 13 to 18 months after the death. Of the 24 ad hoc committees that were appointed, 12 had produced a draft, 6 within 4 months or less and 6 in 5 to 11 months. For the 12 ad hoc committees that had not yet produced a draft, the average time elapsed since their appointments was 10 months. The cases in which the memorial is delayed for a very long time give another measure of the problem. The numbers of senate members who died in 2004 or earlier for whom we have not received draft memorials are: 10 in 2004; 14 in 2003; 4 in 2002; 1 in 2001; 1 in 2000; 2 in 1999; 1 in 1998.

We have instituted a system of routine early reminders to recalcitrant department and ad-hoc-committee chairs, followed up by more strongly worded reminders tailored to the particular case. The large number of memorials published this year suggests that this may have had some effect, but we are still far from our goal, which is to have a large fraction of the memorials published within four months of the death (one month for the appointment of the ad hoc committee, and another three for the draft). Increased publicity for the memorials this year (listing them in the Division meeting notice, and posting them on the Division website) may also have had a beneficial effect. In the future, it would be useful to have the Division Chair remind the department chairs and deans at their annual meeting of the importance of their cooperation in arranging for the memorials.

Submitted by:
Norman E. Phillips, chair, Committee on Memorial Resolutions
Professor of Chemistry
