

Committee on Memorial Resolutions 2019-20 Annual Report

In 2019-20, memorials for the following 52 colleagues were approved and published in *In Memoriam* on the Academic Senate's website:

<https://senate.universityofcalifornia.edu/in-memoriam/index.php>

In Memoriam is a compilation of commemorative statements honoring deceased members of the Division, their lives, and their service to the University. Memorials are normally produced by colleagues of the deceased.

A century ago, the idea of Memorial Resolutions written by the faculty took shape during the first severe viral pandemic of the 20th century: the Great Influenza. A century later, CMR would like to leave a record of COVID-19. We respect family privacy and acknowledge the difficulty of getting the clearest medical information about a new virus. We can report that in the academic year 2019-20, a member of the Berkeley emeriti died of this disease.

The authors of the memorials are listed in the column to the right.
